

Last Night I Dreamt You Slept Beside Me

Aloha

From space they say the world looks perfect.
***(line missing) a hop away from happiness.
Sometimes we take it for granted.
Say goodbye knowing we are one.
Last night i dreamt you were besides me.

Saying I hope there's something past these clouds.

There's a warmth that we've always dreamed of.
And the air that we live on.

Rolling, rolling, rolling on.

The planet we were born on, so long!
