

## Marigold

Aloha

Too many rumors are flying lately  
It's enough to make anyone blush  
Til they hold it in their hands  
Gonna think you made it up  
It's so hard to keep it pure  
I'm no stranger

Marigold  
Don't run, don't run  
I know we're not alone  
Or what if I was  
Keep your expectations low, and I won't disappoint  
I fear it more than words can show  
And it's worse when you turn your back

Threw the prototype into motion  
Unaware that it serves no ends  
They wanna feel it in their hands  
And who am I to deny them  
You're so hard to get to know

Come closer

Marigold  
Don't run, don't run  
I know we're not alone  
Or what if I was  
Keep your expectations low, and I won't disappoint  
I fear it more than words could show  
And it's worse when you turn me out

Marigold  
Don't run, don't run  
Marigold  
Don't run, don't run  
Keep your expectations low, and I won't disappoint  
I fear it more than words could show  
And it's worse when you turn and go  
I fear it more than words could show  
And it's worse when you turn and go
