

## Moonless March

**Aloha**

Our thinking came apart on this moonless march  
arms preceding hearts  
in every small town  
we will lose one will part  
in every sundown we will pour a drink  
in celebration of this moonless march

Our thinking came apart on this moonless march  
in shadows from the start  
in everyone's eyes they are waiting for the light  
in everyone's eyes they are ready for a fight  
on this moonless night

My direction is a figure eight  
and all of you are stops along the way  
and back to you I'm always on my way  
and back to you I'm always on my way  
in everyone's eyes they are ready for the light  
in everyone's eyes they are bracing for a fight  
on this moonless night
