

Searchlight

Aloha

come out come on like a light
from the cover of night
come out wherever you've gone to
I won't let anyone hurt you
breaking up with angels
it's offensive, I can find you
scurry in a leaf pile
search party protocol: no fake smiles

we want what everyone wants
good days and sunshine
hey love hey love
pray for the searchlight, beg for shadows

everybody slides, it's not a crime
locked in your apartment
that's an awful place to hide
we're not beads upon a string
take one off it's still a perfect thing
this binary business, see your shadow
hopeful or harrowing?

I want what everyone wants
good days and sunshine
hey love hey love
pray for the searchlight, beg for shadows

black cloud you waiting around
too late to be found
black cloud you waited
now it's too late to be found
pray for the searchlight hope I come around
