

# Deep Down

Alok

(Street sounds swirling through my mind  
Street sounds swirling through my mind)

I can get down, I can get lonely  
Every time I think about the highs, yeah  
Messed me around and now you keep callin'  
Wonderin' if you can make it right

I told you it's the end for you and I  
Swear this time we're through, but it's a lie  
When you call my name, yeah, ooh, yeah  
It sounds so right, so right, so right

Deep down, wishing you were mine  
Deep down, miss you all the time  
Dream 'bout what we could've been if we tried  
Oh, but deep down, wishing you were mine, were mine

Deep down, you got me so  
Deep down, I wanna go  
Deep down, you got me so, yeah  
Deep down, you got me so  
Deep down, I wanna go  
Deep down, you got me so, yeah

Yeah

Need to be strong  
As soon as I see ya, you can turn my tables back around  
So easy  
You got the control  
Just hearin' you speak just gets me kinda crazy  
Kinda foolish, foolish, yeah

I told you it's the end for you and I  
Swear this time we're through, but it's a lie  
When you call my name, yeah, ooh, yeah  
It sounds so right, so right, so right

Deep down, wishing you were mine  
Deep down, miss you all the time  
Dream 'bout what we could've been if we tried  
Oh, but deep down, wishing you were mine, were mine

Deep down, miss you all the time  
Dream 'bout what we could've been if we tried  
Oh, 'cause deep down, wishing you were mine, were mine

Deep down, you got me so

Deep down, wishing you were mine  
Deep down, miss you all the time  
Dream 'bout what we could've been if we tried  
Oh, but deep down, wishing you were mine, were mine

(Street sounds swirling through my mind) You got me so  
(Street sounds swirling through my mind) I wanna go

(Street sounds swirling through my mind) You got me so  
(Street sounds swirling through my mind)
