

Slow It Down

Alok

Too fast, baby, we should slow it, we should slow it, we should slow it

Guess that I was tired and now that everything is full
Do you wanna ride? We'll pull in, even find a pool
What you're doing, keep doing
It's my breath that I'm losing

You're my flame and fire, heartbeat breaking the silence
When we touch, you know it's all too much
I could go forever, never wanna give it up
Don't go too fast, baby, we should slow it, we should slow it, we should slow it

Down, down, down, down, down, down
Down, down, down, down, down, down
Down, down, down, down, down, down
Down, down, down, down, down, down

I want you on my body but I still can't get enough
I keep catching fire, happens everytime we rush
What you're doing, keep doing
It's my breath that I'm losing

You're my flame and fire, heartbeat breaking the silence
When we touch, you know it's all too much
I could go forever, never wanna give it up
Don't go too fast, baby, we should slow it, we should slow it, we should slow it

Down, down, down, down, down, down
Down, down, down, down, down, down
Down, down, down, down, down, down
Down, down, down, down, down, down

Down, we should slow it down
We should slow it down
We should slow it down
Down, down, down (We should slow it, we should slow it)

Down, down, down, down, down, down
Down, down, down, down, down, down
