

Face to Face

Alpha Blondy

Face to face with my life

Face to face with my destiny

Face to face with my life

Face to face with my destiny

I better stop fooling myself

And deal with today's reality

My life is a flash in the ageless time

Ain't got time to waste

See me face to face with my life

Face to face with my destiny

Face to face with my life

Face to face with my destiny

What people are saying, I don't care

Jah is always standing by my side

No matter how tough it gets

Jah is watching over I

See me face to face with my life

Face to face with my destiny

Face to face with my life

Face to face with my destiny

I'd better stop fooling myself

And deal with today's reality

My life is a flash in this ageless time

Ain't got time to waste

See me face to face with my life

Face to face with my destiny

Face to face with my life

Face to face with my destiny

Face to face with my life

Face to face with my destiny

Face to face with my life

Face to face with my destiny

Face to face with my life

Face to face with my destiny

Face to face with my life

Face to face with my destiny

Face to face with my life

Face to face with my destiny

Face to face with my life

Face to face with my destiny

...
