Alpha Rev

Hmmmmmm, hmmmmmm
Hmmmmmm, hmmmmmm

I started out like all of us
Wide eyes without a gain
We entered witsich innocence
And I'm quicky fade

Hmmmmmm, hmmmmmm

And the chases on the way
Dead currage still with change
After review side again
Bussy rabbits on their way

Get another California
Men to the dorm after river
Give me a review on a couple of cigarets
And now find a what I love

Hmmmmmm, hmmmmmm

I made a soil from the Earth
I made root from your spring
But I've got so afraid to go
I'm open to this changed me

Get another California
Men to the dorm after river
Give me a review on a couple of cigarets
And now find a what I love

Stopping by the New York
Travelling through the Luray, Virginia forest
It's never really way to thinking it
To find what I love
And you find a one you love

Oooo, ooo
owohohowooo

Find new city with a too much money (owohohowooo)
Find new dawn within running and running (owohohowooo)
