

# Phoenix Burn

Alpha Rev

I need love that will release me  
Keep me honest, keep me happy  
I need a peace with understanding  
Trying to find a softer landin

I wanna know when I can change this  
Or give it up and just embrace it  
I need to find a way of letting it go  
When everything falls apart

I've taken too much, given up  
I am twisted, burnin, breaking up  
I need to find a way of letting it go  
When everything falls apart  
I could try, but I'd never take it  
Yell and I will never be heard  
You will be my phoenix burn  
I could run, but I'd never reach it  
Leave but I might never return  
You will be my phoenix burn

I wanna push through the undiscovered  
Find my answers, leave them uncovered  
I wanna speak out what I believe in  
That love will heal us, give us our freedom  
I wanna see what's on the horizon  
Change directions, stop the fightin  
I need to find a way of letting it go  
When everything falls apart

I've taken too much, given up  
I am twisted, burnin, breaking up  
I need to find a way of letting it go  
When everything falls apart  
I could try, but I'd never take it  
Yell and I will never be heard  
You will be my phoenix burn  
I could run, but I'd never reach it  
Leave but I might never return  
You will be my phoenix burn

Let me burn  
Let me burn

Yeah, I've taken too much, given up  
I am twisted, burnin, breaking up  
I need to find a way of letting it go  
When everything falls apart  
I could try, but I'd never take it  
Yell and I will never be heard  
You will be my phoenix burn  
You will be my phoenix burn
