

# When Did I Wake Up

Alpha Rev

Buried in my past again  
Losing in my sleep  
Tired of taking history on the chin  
I've been bleeding from the pressure lately

When did I wake up?  
Or am I still dreaming  
I won't fade out  
I won't leave you behind  
Everlasting love  
And my heart is screaming  
"Hold on to me, I won't leave you behind"

Trying but you cannot hide  
To change this lock and key  
Traded for some peace of mind  
You've been bleeding so much better lately

When did I wake up?  
Or am I still dreaming  
I won't fade out  
I won't leave you behind  
Everlasting love  
While my heart's still beating  
"Hold on to me, I won't leave you behind"

And I wake now  
And I wake now

When did I wake up?  
Or am I still dreaming?  
I won't fade out  
I won't leave you behind

And I wake now  
And I wake now
