

bleed 4 you

Alpha Wolf

The flowers dance but never in time
Can't find the rhythm just like you and I
The wind sweeps these leaves to my feet
I wish it could bring me to you

I'll call you when I'm ready for you to find me
(I'll call you when I'm ready for you)

I'm going numb (I'm going numb)
I'll bleed for you (I'll bleed for you)
I'm going numb (I'm going numb)
I'll bleed for you, I'll bleed for you

Chase the neon through the mist and you'll find me
Winter benches, 2am, replay our memories
Such a cold lonely world
There's no light without you

I'm going numb (I'm going numb)
I'll bleed for you (I'll bleed for you)
I'm going numb (I'm going numb)
I'll bleed for you

I'll call you when I'm ready for you to find me
I'll call you when I'm ready for you to find me
I'll call you when I'm ready for you to find me
I'll call you when I'm ready for you
