

Death Bringer

Alpha Wolf

FUCK

These fucking dark days
Will always haunt me
It's so hard to see
When all this death confronts me

This fucking madness
I have etched in my mind
Fucking picture perfect
Distorted by my insanity

I'm within legions of the truly damned
Insanity slowly consumes me

I'm surrounded by all these hauntings
Stuck in this fucking bleak place
With death as my only company

Silence has taken over me

So I can't confess to the things I see
The malevolent presence of a fucking
DEATH BRINGER

I'm within legions of the truly damned
Insanity slowly consumes me

Eyes a spark
Teeth bared
Dreaded beauty bring it unto me

Threatening to consume me
Succumbing to death's dark allure

Death will find my place
So dig a shallow grave

And bury me face down
So I can look hell in the fucking face

I'm succumbing to death's dark allure
