

Ultra-Violet Violence

Alpha Wolf

You've got that tonic-clonic look in your eyes
I'm about to lose you

Black out

I've got this feeling
That I need some help
Can't shake this feeling

Paralysed, frozen with insomnia
I have a problem, I never faced it
Feels like I'm losing my mind (total system collapse)
I think I've lost my mind

Ultra-violet violence
Takes away from the silence
Can you hear the sirens?

You've got that tonic-clonic look in your eyes
I'm about to lose you (I don't want to lose you)
Black out, black out
Peripheral sensory shutdown
I see the whites of your eyes
Where do you go? (I need to know)
Black out, black out
I'm losing you

Unconscious body pulsing
Swallows your tongue
Cough it up from the choke
Eyes rolled to the back of your skull
Unnerving convulsing
