

## Blue Autumn

Alpha

It happens when you're gone  
The place you lay still warm  
Then I close every single door  
But barely can I wait

Blue autumn let me down  
Leave me scattered on the ground  
And decide  
Won't you fly away from me

It's over when it's gone  
But barely can I demand  
My feelings ever mean a thing  
If i beg you what would I be

Blue winter let me down  
Leave me frozen on the ground  
And decide  
Won't you fly away from me

Blue summer bring me round  
Bathe in circles from the sun  
To decide  
Don't you fly away from me
