

I've never pretending have the truth
Anyhow I should listened to you
I'm very sorry
Is it right now.

Be a friend
Don't learn at my expense
So concerned
Despite your empty words
I care, be there
But leave me breathing
Don't despair
I know why
I'm so alive

Heads, to say you have it
Tails to say you don't
Lost for words and I think
Time to take you home
Caught you up a ladder
Trying to end it all
Is it any wonder
I believe them all ?

You don't see it do you ?
You shouldn't play God
You got something on your mind
Just knock it off
You smile a little more
You stop saying no
You don't seem to be the trying type after all

I break your fall and say
You could have been nothing

Be a friend
Don't learn at my expense
I care, be there but
Leave me breathing
Don't despair
I know why
I'm so alive
To leave me breathing
Don't despair
I know why I' m so alive

You don't see it do you ?
You shouldn't play God
You got something on your mind
Just knock it off
You smile a little more
You stop saying no
You don't seem to be the trying type after all

Sight of nothing
Sight of the world
Sight of the

Sight

Be like everyone else
Be like everyone else
Be like everyone else

Do you like, do you like me, let's go away

Be like everyone else

Any day now we could leave town,
Down, take a car in London Town, take a London
