

# Shadows

Alphabeat

I hear 'em coming from miles around  
Closing like footsteps without a sound  
I may be a fool but this is the truth  
It's coming for me, and trust me, it's coming for you

I wanted peace in my mind, in my mind  
I say now, you, you make it harder to find, to find

I see shadows moving around  
I never let 'em closer, I just stick to the sound  
I see shadows closing in  
I never let 'em get me, I just keep moving

Look at me running, don't know where to  
I got my reasons and so do you  
Keep on believing you'll start anew  
It's coming for me, and trust me, it's coming for you

I wanted peace in my mind, in my mind  
I say now, you, you make it harder to find, to find

I see shadows moving around  
I never let 'em closer, I just stick to the sound  
I see shadows closing in  
I never let 'em get me, I just keep moving

Move with me  
Move, ah-ha, move, ah-ha, move, ah-ha  
Shadows, yeah yeah  
(Move with me)  
Move, ah-ha, move, ah-ha, move, ah-ha

It's coming for me, it's coming for me  
It's coming for me, it's coming for me  
Move with me  
It's coming for me, it's coming for me (oh move with me)  
Move with me  
It's coming for me  
Yeah

I see shadows moving around  
I never let 'em closer, I just stick to the sound  
I see shadows closing in  
I never let 'em get me, I just keep moving

Move with me  
Move, ah-ha, move, ah-ha, move, ah-ha  
Move with me  
Move, ah-ha, move, ah-ha, move, ah-ha
