

Sometimes

Alphabeat

Shine a light
Shine inside
Come in through my window
Keep me up all night
Let me stay a while
On your mind
Just shine, shine, shine
Sometimes

Heard you've been all over town
Since you left me
I was walking on water
In charts and on TV
But don't tie me down
I still wanna fly
I'm gonna try, try, try

Folks they come up to me
Saying 'how do you do?'
I say I'm good
Though sometimes it's half the truth
But I've learned how to
Lose and win
And you're still under my skin

Shine a light
Shine inside
Come in through my window
Keep me up all night
Let me stay a while
On your mind
Just shine, shine, shine
Sometimes

It's supposed to be simple
Writing a song
I can't remember
I haven't done it for quite long
Now they can laugh
Or they can cry
I'm gonna try, try, try

Shine a light
Shine inside
Come in through my window
Keep me up all night
Let me stay a while
On your mind
Just shine, shine, shine
Sometimes

Well sometimes life is easy
Sometimes it's hard
But I'm still strong
And I'm ready to start
So if you're coming around
Don't pass me by

Just come and see me sometimes

Shine a light
Come in through my window
Keep my up all night
Let me stay a while
Just shine, shine, shine
Sometimes

Shine a light
Shine inside
Come in through my window
Keep me up all night
Let me stay a while
On your mind
Just shine, shine, shine
Sometimes

Shine a light
Come in through my window
Keep my up all night
Stay a while
Just shine, shine, shine
Sometimes
