

## Carry Your Flag

Alphaville

We must have played  
For more than ten years  
We must have thought  
That we're immortal  
Shame, shame on us,  
Ah little hussy,  
What did you think I was

I look at us  
We have grown older  
A lot too much  
For me to take  
I thought  
We were immortal  
I'm so sorry  
I couldn't keep my promise..

..to carry on your flag for you  
Some superhero-being

It seems to me  
That we are changing  
There ain't no limit  
To imagination  
The world just turns around  
Without a care  
Sometimes I feel like crying

And every time  
I need to touch you  
How can I ever  
Break the distance  
That's why my love  
Became so strong and pure  
That's why I keep on  
Trying forever..

..to carry on your flag for you  
Some superhero-being  
F o r y o u  
Some superhero-being  
Waiting  
Under the light of the moon  
F o r y o u..

I'm coming soon..
