Summer Rain

Alphaville

World without a breeze Heartbeat of the heat above the harbour Lazy day lies dazed upon the shelf Atomic lizards lick at the blaze of a light that is forever No move in the solid skies No gleaming metal out of the breathtaking blue

My golden circus girls all sailed away The lion tamers are no longer due to play Whoever breaks the Seven Seals And lets the angry angels free I do not know Just waiting here For summer rain For summer rain Or anything else

Prophet hold your head up Into a cluster of bees and listen "Love of my life Here is all our honey Yes, we can change the world, together" And if we're still invited to walk in this party I'd go for a saucerful of secrets or more But the last thing I heard of was that GOD had left the lines For a brand new universe HE was supposed to say

My golden circus girls all sailed away The lion tamers are no longer due to play Whoever breaks the Seven Seals and lets the angry angels free I do not know Just waiting over there For summer rain For summer rain

What a glorious feeling I'm happy again Just cool rain
