

Shot Fox

Alpine

Wondering why, I'm feeling so sad
I got love and safety in each hand
I'm a first world problem waiting to explode

And when you're gone the world seems brighter
And when your heart beats, mine beats faster
And when you're gone the world seems brighter
And when your heart beats, mine beats faster

I don't know why
It must be mad
Spent too much time looking in my head
There is a sky there is a ground, it's us

And when you're gone the world seems brighter
And when your heart beats, mine beats faster
And when you're gone the world seems brighter
And when your heart beats, mine beats faster

When you fall in love with me
That'll mean safety
Will you throw my phone away?
Stick around
When you're gone
When you're gone
When you're gone
When you're gone

And when you're gone the world seems brighter
And when your heart beats, mine beats faster
And when you're gone the world seems brighter
And when your heart beats, mine beats faster

When I saw you
When I saw you
When I saw you
When I saw you
