

Love U Back

Alsou

So cold, so cold. My heart on yours
The games you play
You know, you know I can't ignore
The words you say
You're so, you're so impossible
But can't you stay around
Without holding me down

Cause the pieces don't quite fit
Maybe we're just friends
Cause I don't wanna go making promises

I wish, I could love you like that
I wish, I could love you back
Love you back
La love you back
Love you back
La love you back

I wish, I could love you like that
I wish, I could love you back
Love you back
La love you back
Love you back
La love you back

Love you back
La love you back
Love you back
La love you back

Sweet, oh sweet, you talk to me
I'm so lost
I know, I know I can't compete
With what you've got
You change my mind so easily
You trick my heart
You I know I like u but...

The pieces don't quite fit
Maybe we're just friends
Cause I don't wanna go making promises

I wish, I could love you like that
I wish, I could love you back
Love you back
La love you back
Love you back
La love you back

I wish, I could love you like that
I wish, I could love you back
Love you back
La love you back
Love you back
La love you back

Love you back
La love you back
Love you back
La love you back

I wish, I could love you like that
I wish, I could love you back
Love you back
La love you back
Love you back
La love you back

Love you back
La love you back
Love you back
La love you back
