

## Now I Know

Alsou

Innocence, I came to you searching for something  
You touch a flame, deep inside and what I feel, I can't hide  
Grains of sand, on the shore, I won't search anymore

Now I know, what love is, from both sides I've learnt this  
Every heart, has to grow you shown me, now I know, now I know

When it gets dark, you shine a light, guiding my spirit  
Yes I've wondered, reasons why you've turned my soul out to cry  
Grains of sand on the shore, I won't search anymore

Now I know what love is, from both sides, I've learnt this  
Every heart has to grow, you shown me, now I know, now I know

Now I know, just what love is, I feel the power there in every  
kiss  
Now I know, just how it feels in the silence my emotion reveals  
what love is

Now I know what love is, from both sides, I've learnt this  
Every heart has to grow, you shown me, now I know, now I know  
Now I know what love is, from both sides, I've learnt this  
Every heart has to grow, you shown me, now I know, now I know

What love is from both sides I've learnt this  
Every heart has to grow, you shown me, now I know, now I know  
Now I know
