

Pretty face

Alsou

Ooh...ooh

Oh oh

Made up my mind this is goodbye
Don't want you back
I'm doing was right for me this time
Never again
Well like a fool
Baby that someone just like you
I remember how you make me feel
Now it's gone

And baby how you put me down
Are you still amaze
And get away with anything your pretty pretty face
I learned my lesson well I never change my mind
It won't be the same to see your pretty face again

This is my life I made a choice
You gotta go for I heard the voice inside of me
Waking me up waiting so long
I should have seeing something once broke
I remember how you make me feel
Now it's gone

And baby how you put me down
Are you still amaze
And get away with anything your pretty pretty face
I learned my lesson well I never change my mind
It won't be the same to see your pretty face again

And I never buy my love for you
Now you're gone I'm not sorry
I'm not sorry
Seeing what is good for me
Baby your love is history yeah...

And baby how you put me down
Are you still amaze
Still amaze
And get away with anything your pretty pretty face
Pretty face
Oh oh oh
I learned my lesson well I never change my mind
Change my mind
It won't be the same
It won't be the same
It won't be the same
To see your pretty face again

Baby this is goodbye
This is goodbye
I have made up my mind
Made up my mind
I learned my lesson well I never change my mind
It won't be the same
To see your pretty face again

And baby how you put me down
Are you still amaze
Still amaze
And get away with anything your pretty pretty face
Pretty face
I learned my lesson well I never change my mind
Change my mind
It won't be the same
It won't be the same
It won't be the same
To see your pretty face again

Baby this is goodbye
This is goodbye
I have made up my mind
Made up my mind
I learned my lesson well I never change my mind
I never change
It won't be the same
This is goodbye
To see your pretty face again
