

BACK TO EARTH

alt.

I set my rockets off
Engines are turning red
They're calling lift-off

I just wanna make you move, get loose
Do anything you came here to do
I just wanna make you move, that's true
Do anything you're out here to do

Just get it out
Just get it out

I'm falling back to earth
I think I hurt my head
I'm gonna shoot my shot
I'll pull up when I'm dead

I just wanna make you move, get loose
Do anything you came here to do
I just wanna make you move, that's true
Do anything you're out here to do

Just get it out
Just get it out

I'm cutting through the air
I'm not coming down

I don't wanna be a rockstar
Just wanna make bank while I live each day to the fullest
Have a great time while I'm still alive, can you feel me now?
I wanna quit my paint job
I don't wanna mix tints, I just wanna mix beats, can you feel me?
Pulling all the stops till I reach the top, send my ship to Mars before this shit goes hard

I just wanna make you move, get loose
Do anything you came here to do
I just wanna make you move, that's true
Do anything you're out here to do

I just wanna make you move (get it out)
I just wanna make you move (get it out)
Move
