

PARASITE

alt.

I'm beaten black and blue but where were you then
I was always there for you, where were you when I needed help to
his time
Where is your spine
You're a gutless self righteous motherfucking

Parasite
You drew the blood, there's nothing left
You bled me dry
And left me as a nervous wreck

You think you're too good for this you won't bail me out
Think about the times I promised my life
You're too good for this you can't bail me out
Well I guess I don't wanna see your motherfucking face again
I had your back when you're running your mouth and it makes me
sick
You're gonna die without a friend in your life

Parasite
You drew the blood, there's nothing left
You bled me dry
And left me as a nervous wreck
