

# Breathe

Alter Bridge

You were hungry for life  
Then you took mine  
Left me so hollow  
And I was eager to play  
To give you all of me  
For what I will never know

Well I'll rest my eyes  
And I'll let the earth breathe  
And I'll bide my time  
I'll let the earth breathe

You wiped the smile from our face  
Our saving grace  
Our lasting passion  
And with a knife in our soul  
We will arise  
We will not feel it

Well I'll rest my eyes  
And I'll let the earth breathe  
And I'll bide my time  
I'll let the earth breathe

Well it's all I am  
And it makes me feel at home  
And I must be mad  
And I must not care at all

Well I wipe my eyes  
And I feel it taking warmth  
'Cause it left me here  
And it left me all alone

Well I'll rest my eyes  
I'll let the earth breathe  
And I'll bide my time  
I'll let the earth breathe

Well I'll rest my eyes  
I'll let the earth breathe  
And I'll bide my time  
I'll let the earth breathe
