

## Power Down

Alter Bridge

Take while there's time  
Know the heights just out of reach are yours to climb  
But fate will decide  
For the shadows never sleep  
Why don't you

Stop for a minute?  
Take a little bit of time  
Take what is given  
Don't let this moment pass you by

Power down just long enough  
To see what you might find  
A life that is so beautiful  
Was right there all the while

Power down

How far you have come  
Was it worth it in the end to touch the sun?  
You burned to become  
Still you'll never be enough  
Why don't you

Stop for a minute?  
Take a little bit of time  
Pushed to the limit  
You're only burning out

Power down just long enough  
To see what you might find  
A life that is so beautiful  
Was right there all the while

How long will you wait  
Until you slow the pace?  
The sands of time are running down  
Running to escape  
Will only seal your fate  
It's time to face the truth right now

Power down just long enough  
To see what you might find  
A life that is so beautiful  
Was right there all the while
