

Slave To Master

Alter Bridge

Ease your mind
And do not fear
The violence in their eyes
Hold on tight
The new machine
Has left us out to dry

Even though this truth is hard to take
We're stepping back, we've lost our way
But still, still we try
Regardless of the death within
It's not too late to start again
Please give, give us a sign
While we still have time
Oh

Silent, still and waiting
A future of its own making

Untamed
Giving way to a fate, watch it burn
As slave turns to master
Replaced
Nothing's safe, now we all fear the worst
And it's too late to turn back now

Bow down to innovation
The new god a revelation

Untamed
Giving way to a fate, watch it burn
As slave turns to master
Replaced
Nothing's safe, now we all fear the worst
And it's too late to turn back
Too late to turn back now

As we watch it burn to the ground once again
Right now, though we fear the worst, steeped in doubt
We must fight till the end

Fools and tyrants
Stay behind us
Watch and learn as it falls
As it falls
As it falls

At the mercy of what will guide us
To our end if we don't
Wake up and take hold
And fight to atone

Though mistakes we have made define us
Don't pretend we're alone
It's out of control
So where do we go?

Oh, oh, it's out of control
So where do we go?
Oh, oh, it's out of control
So where do we go? Oh

Oh, oh, it's out of control
So where do we go?
Oh, oh, it's out of control
So where do we go? Oh
