

# Wonderful Life

Alter Bridge

Close your eyes  
And just hear me sing  
One last long goodbye  
One last song before you spread your wings

There's so much left to say  
And before this moment slips away

What a wonderful life  
For as long as you've been at my side  
And I want you to know  
I loved you so

The the cold night calls  
And the tears fall like rain  
It's so hard letting go  
Of the one thing I'll never replace

And soon you will be gone  
But these words, they will live on, oh

What a wonderful life  
For as long as you've been at my side  
And I want you to know  
I'll miss you so

And though our days come to an end  
No, I'll never love like this again  
What a wonderful life, my friend

And all that I am you let me be  
I will remember you  
For all that you've done and given to me, oh

Love will remain, this I can see  
Now and forever more  
Because of you now I believe  
I believe

What a wonderful life  
For as long as you've been at my side  
And I want you to know  
I loved you so

What a wonderful life  
For as long as you've been at my side  
And I want you to know  
I'll miss you so

And though our days come to an end  
No, I'll never love like this again  
What a wonderful life, a wonderful life  
What a wonderful life, what a wonderful life  
Oh yeah

And with one last embrace  
And as the tears fall like rain you're gone

And with one last goodbye  
As you fade out tonight, you're gone, oh, ooh
