

Float

Altons, The

This love ain't ordinary
The extra makes it work
Love you so much, honey
Sometimes it hurts

And we'll float together, baby
Feels like an omen, all of my life
When I see you coming
My heart, it takes flight
And we'll float together, baby

Moonlights shines a way
We can go my love
On a cloud far away
By the stars, the sky is ours

And we'll float together, baby

Moonlight shines a way
We can go my love
On a cloud far away
By the stars, the sky is ours

Love ain't ordinary
The extra makes it work
Love you so much, honey
Sometimes it hurts

And we'll float together, baby

And we'll float
And we'll float
And we'll float
And we'll float
And we'll float
