

# Envious

Aluna

Don't make me envious  
You know I'm cruel when I see red  
And I'm losing my head

People think I'm strong  
And there ain't nothing wrong with that  
Except when I get mad  
Except when I get sad

And I got  
No way to hold this feeling  
I'll keep it to myself  
I wanna hold you deeply  
But I'm getting something else

Yeah, you already know how to get to me, get to me, ah-ah  
Told you what will make me crazy, crazy

Don't make me envious  
You know I'm cruel when I see red  
And I'm losing my head  
You're gonna make me dangerous  
And push the damage to the edge  
Just dance for me instead

And I don't want your games now  
I just want your love  
And I don't want this pain  
It'll make a mess of us  
Don't make me envious  
You know I'm cruel when I see red  
And I'm just losing, losing, losing

Yeah, you got some nerve  
Standing over there with her  
Just to make me mad  
Just to make me sad

And I got  
No way to hold this feeling  
I'll keep it to myself  
I wanna hold you deeply  
But I'm getting something else

Yeah, you already know how to get to me, get to me, ah-ah  
Told you what will make me crazy, crazy

Don't make me envious  
You know I'm cruel when I see red  
And I'm losing my head  
You're gonna make me dangerous  
And push the damage to the edge  
Just dance for me instead

And I don't want your games now  
I just want your love  
And I don't want this pain

It'll make a mess of us  
Don't make me envious  
You know I'm cruel when I see red  
And I'm just losing, losing, losing

Yeah, you got some nerve  
Yeah, you know how to get to me  
Yeah, you got some nerve  
You know how to get to me

You know I'm cruel when I see red  
You know I'm cruel when I see red  
You know I'm cruel when I see red  
You know I'm cruel when I see red

Don't make me envious  
Get to me, you know how to get to me  
Gonna make me dangerous  
Get to me, get
