

Forget About Me

Aluna

Forget about me

You and me ain't what we used to be
You keep saying I've changed
I guarantee I'll be who I choose to be
You wanna keep me the same

I can't help it if I'm on your mind, on your mind
And all of the ways I'm leaving you behind, you behind
I can't help it if I'm on your mind, on your mind
You got to, you got to forget about me

Forget about me
'Cause we ain't matching signs
Same destiny
Getting written in the stars
So forget about me
I can't lie
You got to, you got to forget about me

Forget about me
Forget about me
Forget about me
You got to, you got to forget about me

Not my fault if you ain't ready
My evolution drives you crazy

I can't help it if I'm on your mind, on your mind
And all of the ways I'm leaving you behind, you behind
I can't help it if I'm on your mind, on your mind
You got to, you got to forget about me

Forget about me
'Cause we ain't matching signs
Same destiny
Getting written in the stars
So forget about me
I can't lie
You got to, you got to forget about me

Forget about me
Forget about me

Same destiny
The same destiny
'Cause we ain't matching signs
Same destiny (no)
The same destiny
'Cause we ain't matching signs

So forget about me
'Cause we ain't matching signs
Same destiny
Getting written in the stars
So forget about me
I can't lie

You got to, you got to forget about me

Forget about me

Forget about me

You got to, you got to forget about me

Forget about me

Forget about me
