

Supernova

Aluna

Now she's arrived
Just like a light
She's a supernova
Shining in the night
She's in your heart
Now is the time
She will spin you 'round
And leave you out of sight

Always taking a backseat
'Cause you feel too weak
And you're hiding from the glare
All the emotions
And all the exposure
People they judge you
Baby life just isn't fair

But you could have it all
You're not one dimensional
You don't need to pick a lane
That is guaranteed to make you go insane
Let go of the shame
'Cause there's no one to blame
But there's someone inside you

Now she's arrived
Just like a light
She's a supernova
Shining in the night
She's in your heart
Now is the time
She will spin you 'round
And leave you out of sight

Never too late
To let yourself go
Let the rhythm
Do those bad things to your soul
It's not healthy
To go too long
Keeping down the fire
Deep down low

But you could have it all
You're not one dimensional
You don't need to pick a lane
This is guaranteed to make you go insane
Let go of the shame
'Cause there's no one to blame
But there's someone inside you

Now she's arrived
Just like a light
She's a supernova
Shining in the night
She's in your heart
Now is the time

She will spin you 'round
And leave you out of sight

Now she's arrived
Just like a light
She's a supernova
Shining in the night
She's in your heart
Now is the time
She will spin you 'round
And leave you out of sight

Looking at the girl I see
She is mine
And she is me
Sometimes I can't find a way to smile at her
But I still try

But you could have it all
You're not one dimensional
You don't need to pick a lane
That is guaranteed to make you go insane
Let go of the shame
'Cause there's no one to blame
But there's someone inside you

Now she's arrived
Just like a light
She's a supernova
Shining in the night
She's in your heart
Now is the time
She will spin you 'round
And leave you out of sight

Oh leave you out of sight
Shining in the night
Look into your heart
Oh baby now's the time
Leave you out of sight
Shining in the night
Look into your heart
And baby now's the time
