

# Underwater

Aluna

Deep breath, I'm going down  
Deep breath, I'm going down  
Deep breath, I'm going down

Overhead, it's like I'm drowning  
In your eyes  
Your whisper  
And your mind

You got me underwater  
And I need oxygen  
Baby take me higher  
So I can breathe again  
You got me underwater  
And I don't wanna leave  
And I just can't deny it  
It's what you do to me

It's what you do  
It's what you do to me  
It's what you do  
It's what you do to me  
It's what you do to me  
It's what you do  
It's what you do to me

So blue without you babe  
I'm longing for you  
I'm always hungry  
For your eyes  
That sweet whisper  
It's your mind  
It's got me  
You got me babe  
You got me  
You got me baby  
You got me  
You got me babe  
You got me  
You got me

You got me underwater  
And I need oxygen  
Baby take me higher  
So I can breathe again  
You got me underwater  
And I don't wanna leave  
And I just can't deny it  
It's what you do to me

And I can't escape this feeling  
It ripples all over me  
Your love is slipping all over my skin  
You got me underwater  
And I need oxygen  
Baby take me higher  
So I can breathe again

You got me underwater  
And I don't wanna leave  
And I just can't deny it  
It's what you do to me  
It's what you do
