

Kaleidoscope Love

AlunaGeorge

You show me
Things in a different light
Things that go wrong or right
You and me making
Chemical equations
Deadly combinations
Dangerous situations
Running out in the magic of the night

Steppin' out of these restless days
Of disappointed haze
And it's all I wanna be
And it's all I wanna do
'Cause nothing else makes me weightless
Like your light-reflecting gaze
I don't think you even realize what you do what you do

I'm crystalised
'Cause you're my kaleidoscope love
Kaleidoscope love
I'm crystalised
'Cause you're my kaleidoscope love
Kaleidoscope love

I think about you all the time
You're in the atmosphere
I try to touch your silhouette
Even though I know that you are never here
Shadows and waves
But there's no more fear
I just can't get enough

Steppin' out of these restless days
Of disappointed haze
I don't think you even realize what you do what you do

I'm crystalised
'Cause you're my kaleidoscope love
Kaleidoscope love
I'm crystalised
'Cause you're my kaleidoscope love
Kaleidoscope love

You show me
Things in a different life
Things that go wrong or right
You and me making
Chemical equations
Deadly combinations
Dangerous situations
Running out in the magic of the night
Running out in the night
In the night
Running out in the night

I'm crystalised
'Cause you're my kaleidoscope love

Kaleidoscope love
I'm crystalised
'Cause you're my kaleidoscope love
Kaleidoscope love
