

## Fool No More

Alvin Lee

See that woman walkin' down the street  
Feel easy, world is at her feet  
Spends her days hangin' 'round on the bad side of town

Fallen angels gather by her side  
Lonely faces wearin' thin disguise  
Watch her place for the man who is holding the prize

Come tonight she'll be flyin'  
Freedom hers for a while  
For the fire she is paying  
She'll be running 'round in circles trying to catch my eye

I made a mistake and I should have seen it before  
I gave her my heart when I needed time to be sure  
been a fool to myself, I'll be a fool no more  
fool no more

The game is lonely in the cards of life  
I see this joker lookin' for that child  
The pain is rough when you're out on the bad side of town

Falling out of favor, seeing through shady lies  
Running out of luck, wish through empty skies  
I've been caught too easy this time, gonna change my mind, gonn  
a change my life, gonna leave this girl behind

Every single day that the good lord sends me  
I do my very best to bring my babe to please  
I've had enough of being put down just for trying to keep the p  
eace

I won't be your fool no more, won't be your fool no more  
won't be your fool no more, I'm walkin' right out that door  
won't be your fool no more, won't be your fool, your fool no mo
