

# Heart of Stone

Alvin Lee

There she stood in the street  
Looking fine, looking sweet  
But I knew that girl from way back when  
I was young, had my pride  
I was taken for a ride  
And my heart skips a beat every time that I see her again

She's got a heart of stone but she looks so good  
Like a movie star out of Hollywood  
She's got everything she wants, she's never alone.  
She's got a heart of stone and it's all too much  
She will let you look but you must not touch  
You'd better leave her alone, she's got a heart of stone

If you see her go by, with that look in her eye  
Don't be fooled by the game she will play  
Thought that I was the one, then one day she was gone  
And she took all I had and she threw all my loving away

She's got a heart of stone but she looks so good  
Like a movie star out of Hollywood  
She's got everything she wants, she's never alone.  
She's got a heart of stone, I was in her spell  
I was sinking fast in a wishing well  
You'd better leave her alone, she's got a heart of stone

She's got a heart of stone but she looks so good  
Like a movie star out of Hollywood  
She's got everything she wants, she's never alone.  
She's got a heart of stone and she's cold as ice,  
Making promises of a paradise  
You'd better leave her alone, she's got a heart of stone.
