

Let's Go

Alvin Lee

My work is all done, I'm feeling just fine
I'm ready to love you, now the night is mine
Get into the action, it's Saturday night
I'm ready to rock you - light the dynamite

Let's go, let's go, let's go!

My worries and cares, just throw them away
My work is all over, now it's time to play
I feel like a king, I'm as high as a kite
I'm ready to love you - now the time is right

Let's go, let's go, let's go!

Now I'm ready to go, I'm feeling so fine
I'm ready for action, now tonight is mine
My worries are over, it's a Saturday night
I'm ready to rock you - light the dynamite

Let's go, let's go, let's go!

We're going to have a party back at my place
Party! Let's go!
Have a party back at my place!
Let's go!
