

Truckin' Down the Other Way

Alvin Lee

I've been so long, on the highway with everything going my way
My head wasn't ready for you truckin' down the other way
I've been so long, on this freeway - with everybody giving me leeway

I just wasn't ready for you truckin' down the other way

Head on collision says, you got the nerve -and there's no mistake !

My split decision said, it's too late now - to hit the brakes
Whoa, I've been so long on the byway - with everything going my way

Well I just wasn't ready for you truckin' down the other way

Better believe me when I say, that I can't run no more !
That little trucker got me coming' back for more and more and
More, more, more !

I've been so long, on the highway - with everything going my way

I just wasn't ready for you truckin' down the other way

I've been so long, on the freeway - with everybody giving me Leeway,

I just wasn't ready for you truckin' down the other way - Wow !
