

Use That Power

Alvin Lee

Ain't no reason, ain't no rhyme
Should be people doing time
Dumping stuff in our sea, they're gonna kill you and me
Now I'm complaining, I'm pissed off
Where you gonna put this nuclear stuff

C.F.C. - P.C.P., what's that stuff
At the bottom of the sea
Use that power - powerfull stuff

Hot house flowers, burning out
Ozone gone, another drought
Too much fat and all those sweets
Don't compare with your nuclear treats

Tote that barge, lift that bail
Don't go down that nuclear trail
You can't trust the air and breath
You better watch out for that Chernobyl cheese
Use that power - powerfull stuff
