

We Will Shine

Alvin Lee

Woke up this morning
And what did I find
You are still missing
'N still on my mind
but the memory of you's got me
Feeling so fine
That it's making the sun
Start to shine
So I guess I'll just let the sun shine

Feeling so good I don't know what to do
Just had a taste of some Rock and Roll stew
Just got to teil you in case I go blind
That its making the sun start to shine
So 1 guess I'll just let the sun shine

So let's let the sun shine out into the dark
Cause nobody's bite is as bad as their bark
And everyone's good at least some of the time
And just like the sun we will shine
Yes and just like the sun we will shine
