

## Pharmacist

Always

I know you're back  
I saw your sister at the pharmacy  
Picking up  
Said you had that new love glow  
Now that you're here  
I want to wake up on the right side  
Looking back  
Getting out of neutral new track

You know it happens all the time, it's alright  
I hear it happens all the time

We volunteered  
Local centre off the highway  
Nicorette  
Those paths have grown in now  
Velvet fall  
An assistant to the way life's shaking out  
Those girls are older now

You know it happens all the time, it's alright  
I hear it happens all the time, it's alright  
I know I never crossed your mind
