

# Call Me Over

Always Never

Tequila talks are sober thoughts  
I know you well, have not forgot  
You love your boy, you love him not  
But he ain't in your thoughts when you

Call me over  
My sympathy is gone, been on both sides of this wrong  
When you call me over  
My heart's way too broke to be broke anymore  
When you call me over  
Mirage in the night, you're the dangerous kind  
When you call me over  
When you call me over

When you're looking in my eyes it's hard for you to stop  
Cause he ain't in your, ain't in your thoughts  
He ain't in your thoughts girl  
Now we're at your spot  
And I'm in the zone  
And you're taking it off  
This feels so wrong  
But you're not phased at all  
Cause he ain't in you thoughts when you

Call me over  
My sympathy is gone, been on both sides of this wrong  
When you call me over  
My heart's way too broke to be broke anymore  
When you call me over  
Mirage in the night, you're the dangerous kind  
When you call me over  
When you call me over
