

## Feel It

Always Never

Put me in this position  
Close enough to hear you breath  
Your affair the definition  
Of forbidden fantasies  
I never see it coming  
But I always see you leave  
Temptation in the purest  
Not so pure in you and me

Not so pure in you and me  
Not so pure in you and me  
Feel the guilt in every touch  
The same one that sets you free  
But why should I complain  
I feel for you the same  
The secret isn't mine  
I know you know but I I'm just sayin

Oh girl I'm just sayin

I'm just sayin I'm just sayin  
Expectations never weighing  
On the moments that we had  
Just a thought that keeps on playing  
I mean I'd like to hear it  
I know it's just a word  
But why should we fear it

Now we're dancing slow without a sound  
Moving up you're moving down

You feel it I feel it too  
Matching paces we can't undo  
When I'm sober but next to you  
Oh I'm a drunken fool I'm drunk on you

Cause you feel it I feel it too  
Matching paces we can't undo  
When I'm sober but next to you  
Oh I'm a drunken fool I'm drunk on you

Cause you feel it I feel it too  
I feel it too
