

## It's Easy

Always Never

Say less, say less

It's Easy  
Make a little move on the road  
Seven lines  
For a dime  
At least you've got a place you could go  
Tempted  
Opens any door she can find  
Got a lay  
Took the same  
Everybody lost out their mind

Running on a Monday passing out  
It's the little changes adding up  
Can everybody take it easy?  
Maybe I just need some time please  
And girl god damn  
I say it all the time, you're wasting all the time and  
Until then  
You're changing on the run, you'd never even stop and

It's Easy  
Make a little move on the road  
Seven lines  
For a dime  
At least you've got a place you could go  
Tempted  
Opens any door she can find  
Got a lay  
Took the same  
Everybody lost out their mind

I can never tell when I've had enough  
It's getting out of hand yeah it's bad enough  
When did it get so silent  
Check your vest, no pilot  
And girl god damn  
You say it all the time, I'm wasting all my time  
Until then  
I'm changing on the run, I'm never gonna stop and

It's Easy  
Make a little move on the road  
Seven lines  
For a dime  
At least you've got a place you could go  
Tempted  
Opens any door she can find  
Got a lay  
Took the same  
Everybody lost out their mind

Baby what you saying don't lash out  
Have a little more don't pass out
