

# Jealousy

Always Never

You're my best side  
I could never doubt you  
I'll be a savage whenever you want me to  
Never panic  
You always panic  
We coulda had it, we coulda had it

I'm addicted to this jealousy  
The fire in my heart is everything  
Ashamed cause I'm just as poison as you  
It was always the truth, it was always the truth

I'm addicted to this jealousy  
The fire in my heart is everything  
Ashamed cause I'm just as poison as you  
It was always the truth, it was always the truth

Truth  
Always the truth  
Always the truth  
Always the truth  
Yeah  
Hopeless today  
I took one today  
I started to fade  
Ok yeah

I wish I wasn't weak but now would you look at  
I missed out on my chance and now I'm fucking shooketh  
I thought I could do better but better just never came  
And now they all just look the fucking same  
Yeah

Better days, better days  
How long can I sit and wait, sit and wait  
I can't believe I fucked it up, I was dumb  
Now I know

I'm addicted to this jealousy  
The fire in my heart is everything  
Ashamed cause I'm just as poison as you  
It was always the truth, it was always the truth

I'm addicted to this jealousy  
The fire in my heart is everything  
Ashamed cause I'm just as poison as you  
It was always the truth, it was always the truth
