

## Know This

Always Never

I don't need a lot just your soul yeah  
Left a lot of people saying no fair  
But that don't mean, I don't care  
I fucking hate it when you go there  
Oh ahhh  
Enough of all this talk  
Let's not turn this into something that it's not  
Still got my ones from the block  
But you know this  
Yeah you know this

You knew me then so you think you know me now  
A lot changed in our seven years apart  
You still don't know what I'm about  
Yeah you know this, yeah you know this  
Knew me then, wouldn't say you know me now  
Sweet words tryna pull me by the heart  
Yeah no offence but you won't get very far  
Yeah you know this yeah you know this

Ah ah ah  
I know I'm losing touch and I'm ashamed  
Cause the cycle that I'm in will have it's way  
And the last 365 don't feel the same  
I knew the rules, I knew this game  
Oh naaaa

You knew me then so you think you know me now  
A lot changed in our seven years apart  
You still don't know what I'm about  
Yeah you know this, yeah you know this  
Knew me then, wouldn't say you know me now  
Sweet words tryna pull me by the heart  
Yeah no offence but you won't get very far  
Yeah you know this yeah you know this
