

No Good

Always Never

Catch me on a summer night
Hanging on the edge of my
Fears like I'm trying to let go
Suddenly I'm falling quick
Head feels like an elephants
Scared of who I was before
Feel like my own enemy
Telling me I'm telling me
This is how it always goes
I heard it from another one
I can't trust anyone
Wish I never had to know

Cause I
I know you're up to no good
Girl you're up to no good
Girl you're up to no good
Yeah
I know you're up to no good
Girl you're up to no good
Girl you're up to no good
Yeah

I bought back my sanity, got it now
Give me some reason to try this now
I'm just here waiting to solve it now
Solve it now
Solve it now
I've been in front of you
This whole time in front of you, I
Just want the truth

Catch me on a summer night
Hanging on the edge of my
Fears like I'm trying to let go
Suddenly I'm falling quick
Head feels like an elephants
Scared of who I was before
Feel like my own enemy
Telling me I'm telling me
This is how it always goes
I heard it from another one
I can't trust anyone
Wish I never had to know

Cause I
I know you're up to no good
Girl you're up to no good
Girl you're up to no good
Yeah
I know you're up to no good
Girl you're up to no good
Girl you're up to no good
I know you're up to no good
Girl you're up to no good
Girl you're up to no good
Yeah

I know you're up to no good
Girl you're up to no good
Girl you're up to no good
