

Return To Sender

Always Never

It's not like I've been hoping, I've been praying
Dreamt it since the day she said I ain't him
Remember when they said we'll never make it
Now I'm out here vibing as my day shift
Just booked a trip to Atlanta then I'm going south
Was always in the making never had a doubt
Might hit up all the islands spend about a month
Now she's salty like the water that I float above

Oh no no
Message in a bottle that you tryna throw
It bounce right back, girl let go
Rather be back on my own
Own

Really thought I had it all before
Broke my heart in two and just left it on the floor
Got myself a new girl, all I want is more
All I want is more, bentley poster on the door
Really thought I had it all before
Broke my heart in two and just left it on the floor
Got myself a new girl, all I want is more
All I want is more, bentley poster on the door, yeah

Landed back in 'Ronto now ya hittin up
Saw me on the gram really living up
You showed up at my place so that's enough
Oh don't cause a scene, how ya holdin up?
What could I do? I left when I left 'cause I felt like I had to
You were loyal till the minute I had bad news
Couldn't count on you

Move on on on
Message in a bottle that you tryna throw
It bounce right back, girl let go
Rather be back on my own
Own

Really thought I had it all before
Broke my heart in two and just left it on the floor
Got myself a new girl, all I want is more
All I want is more, bentley poster on the door
Really thought I had it all before
Broke my heart in two and just left it on the floor
Got myself a new girl, all I want is more
All I want is more, bentley poster on the door, yeah
