

You drive me some crazy
But I need you baby
You drive me some crazy ah
Are you tryna break me down, down, down?
The whites in your eyes are gone now
Do you even know what you're on now

When I had you, had you, right by my side
I never stopped to wonder
I never stopped to see if you're okay
When I had you, had you, right by my side
I never stopped to wonder
I never stopped to see if you're okay
Are you okay?

It happened again
It happened again
I mean you're in my bed
Yeah you fucked up again
I fucked up again yeah
It's all my fault
I said no looking back but
When I'm alone
I think bout the times

When I had you, had you, right by my side
I never stopped to wonder
I never stopped to see if you're okay
When I had you, had you, right by my side
I never stopped to wonder
I never stopped to see if you're okay
Are you okay?

The things I've dont make me proud
But who am I if you're not around
Baby I'm so hopeless now
But I made it
Oh girl I made it

When I had you, had you, right by my side
I never stopped to wonder
I never stopped to see if you're okay
When I had you, had you, right by my side
I never stopped to wonder
I never stopped to see if you're okay
Are you o...

There's something in my cup
